

# Solaclad Coils & Sheets

Sabre Metals is the region’s premier distributor of Acrylic coated AZ55 Galvalume® steel, coated Galvalume and coated aluminum. Our coils and sheets are the preferred choice for downstream manufacturers and distributors of standing seam, 5V and other metal rib panels. Applications include residential, commercial, industrial and agricultural profiles.

As a dedicated metal supplier, we have a large selection of aluminum and steel coils and sheets always in stock, and significantly more in our supply chain. Our state-of-the-art machinery is designed and built to serve the specific needs of the fast-growing metal roofing market. We can slit and roll a variety of gauges and substrates up to 49” wide to custom widths and lengths, as well as produce sheets and custom trim on very short notice. Most orders are processed between 1-3 days on average.

All our coated metal is sourced domestically, priced very competitively and come with long warranties direct from the coating manufacturers. Due to our relationships with mills, coating lines and technical know-how, we are able to respond faster than most and give our customers exactly what they need, when they need it.

Our product lines include the following:

- **Substrates:** 29, 26 & 24 ga Galvalume, 0320 & 0400 aluminum;
- **Coatings:** Acrylic A55, PVDF, SMP, and Polyester. Custom coatings are also available per spec.
- **Manufacturers & Brands:**
